

Clay & Bailey Mfg. Co.

A CENTURY'S WORTH OF INNOVATION

2186-13-2400 UHMW/PET Emergency Vent

Features:

The advanced design in emergency venting for the 412 Series trailers is the #2186 which meets DOT 49CFR178.345-10.

This vent has a zero release of product during an overturn, and is suitable for low pressure / vacuum applications. Full open settings are 7.5 psi for pressure and 1.0 psi vacuum. Designed for corrosion resistance to various chemicals, the #2186 uses Hastalloy springs & rods, Viton seals and corrosion resistant body material.

Part No.	Size	Material	Wt.
2186-13-2400	2"	P.E.T./UHMW	1.0

Ideal vent for retrofitting to the Clay and Bailey 1890 and 1891 manhole.
