

Clay & Bailey Mfg. Co.

A CENTURY'S WORTH OF INNOVATION

Quick Look

Male & Female Thread High Flow Emergency Vent For Aboveground Storage Tanks

- Buna N O Ring - provides vapor tight seal
- Spring Actuated- assures accurate opening pressure.
- **All Aluminum Construction-lightweight for easy handling and installation. Also, no rust issues from scratches or weathering**
- Clay & Bailey vents can be used in a variety of Aboveground Storage Tank equipment installations where reliable fuel handling petroleum equipment is required.
- Industry Certifications- Underwriters Laboratory and Underwriters Laboratory Canada, #2583.
- Clay & Bailey emergency vents comply with various codes -PEI RP200, Underwriters Laboratories of US and Canada, UL-142, UL-2085, UL-2244, NFPA30, 30A, API 2000.

Because of the spring actuation, the High Flow vent can be installed in a horizontal position for interstitial venting.
