

Adjustable Jarhead

Features:

The Adjustable Jarhead is used to determine the fluid level in a tank covering a range of 18" to 72" (46cm - 182cm).

The Adjustable Jarhead accommodates tank depths up to 72" with a highly visible orange indicator inside of a durable glass housing. The large display scale reading F, $\frac{3}{4}$, $\frac{1}{2}$, $\frac{1}{4}$, and E make it easy to read. Comes with a 2" NPT threaded tank fitting for install. The only mechanical tank gauge that is adjustable by the customer. No need for custom factory orders and no special skills necessary to install. Four ranges of tank depth available: 18"-23", 24"-34", 33"-47", 43"-72". Allen wrenches are included to adjust and tighten linkages.

For use with oil, waste oil, diesel fuel, antifreeze, and other fluids with a high flash point. - DO NOT USE WITH GASOLINE APPLICATIONS OR HIGHLY FLAMMABLE LIQUIDS.

Dimensions

| Part # | Range | Weight /lbs. |
|--------------|-----------|--------------|
| 1316-13-1823 | 18" - 23" | 1.05 |
| 1316-13-2434 | 24" - 34" | 1.05 |
| 1316-13-3347 | 33" - 47" | 1.05 |
| 1316-13-4672 | 46" - 72" | 1.05 |
