

2" Pressure Actuated Vent

0938-03-2000

Features:

The 938 Pressure Actuated Vent for internal venting, is assembled with a steel weld flange for welding installation.

This vent is ideal for additional venting capacity. The design of the 938 allows for a low-profile installation. This unit can be welded to the tank shell.

The vent is constructed of Aluminum parts, Buna N Gaskets and 304 Stainless Steel Springs. The 938 includes a Cast Steel Collar, a Brass Mounting Flange with a 2" Galvanized Mushroom Vent.

Clay & Baileys pressure actuated vents can be used in a variety of mobile equipment application installations where pressure and vacuum relief are required.
