

# Clay & Bailey Mfg. Co.

A CENTURY'S WORTH OF INNOVATION

## Zinc Anode

## Features:

Anodes available in Special High Grade (S.H.G.) zinc. The S.H.G. zinc exceeds all industry requirements for chemical composition. Each anode has plated a plated steel core with 14 feet of #12 THHN insulated lead wire attached with silver solder. Packaged anode backfill is composed of 75% Gypsum, 20% Western Bentonite and 5% Sodium Sulphate. Applications include UST, piping, AST bottoms and other carbon steel in contact with the soil. Zinc anodes can be manufactured to your specific requirements

Part No.	Size	Material	Wt. Lbs
CPAN-12-0001	1#	S.H.G.	4.0
CPAN-12-0005	5#	S.H.G.	11.0
CPAN-12-0008	8#	S.H.G.	13.0
CPAN-12-0010	10#	S.H.G.	19.0
CPAN-12-0015	15#	S.H.G.	35.0
CPAN-12-0018	18#	S.H.G.	38.0
CPAN-12-0030	30#	S.H.G.	68.0
