

Wing Plugs

147SP

Features:

Clay and Bailey Wing Plugs are used on fueling systems and storage tanks made to form seal to prevent entry of any debris into a tank. These cast iron plugs provide compatibility with a variety of petroleum products and feature a wing handle for easy open-close.

They come in various sizes with NPS and NPT compatible threads. Options for 147 include side vent holes.

Gaskets may also be purchased separately for 3", 4" and 6".

Part #	Size	Weight /lbs.
0147-01-3000	3"	4.1
0147-01-3000SP*	3"	4.1
0147-01-4000	4"	4.5
0147-01-4000SP*	4"	4.5
0147-01-6000SP*	6"	7.4
