

## MANHOLES

### Features:

Sturdy manhole allows full opening access. Ideal for non-pressure applications, such as inspection hatches or access to dry storage bins. Speed Ball Handle allows fast spin locking and quick opening of the cover. It also allows easy adjustment of clamping force and gasket compression. Available as a bolt-on or weld-on style. Standard gasket material is Buna-N with other gasket materials available. Typical collar height is 4".

20" Version with flange has the following dimensions:

1. Bolt Circle Diameter 22"
2. Bolt Hole 9/16"
3. Number of Bolts (28)
4. Collar ID 20"
5. Flange OD 23-1/4"

| Part #       | Size | Material   | Weight/lbs. |
|--------------|------|------------|-------------|
| 1901-03-2000 | 20"  | Aluminum   | 28          |
| 1901-07-2000 | 20"  | 304 SST    | 36          |
| 1901-09-1600 | 16"  | Mild Steel | 26          |
| 1901-09-2000 | 20"  | Mild Steel | 35          |
